TAMIKA BISHOP

Revenue Operations & Financial Systems Professional

Order-to-Cash | ERP Implementation | Process Optimization | Salesforce Admin

tbishop225@gmail.com • 502-377-7138 • Scottsdale, AZ

20+ Years Experience

6+ ERP Platforms

100% O2C Expertise

ABOUT ME

Full-cycle Accounts Receivable and Financial Operations professional with 20+ years of experience managing Order-to-Cash processes across multiple industries. In my current role I manage daily AR operations including aging analysis, root cause investigation, credit application, refund processing, billing reconciliation, and collections outreach.

I also serve as the Billtrust platform administrator — managing daily invoice uploads, user setup, permissions, template configuration, and payment portal administration including customer enrollment and access support.

Currently pursuing Salesforce Administrator certification and completing a Business Intelligence Analyst credential to expand my technical skill set and transition into Revenue Operations and Financial Systems roles.

"I don't just manage revenue — I optimize the systems that drive it."

CORE EXPERTISE

Revenue Operations

Full-cycle O2C management, revenue reporting, process optimization, and cash flow visibility

ERP Systems

NetSuite, SAP Ariba, PeopleSoft, MS Dynamics NAV, Coupa, Billtrust — implementation & administration

Systems Implementation

Platform configuration, master data management, user setup, permissions, template development & testing

Data & Analytics

Power BI dashboards, Excel advanced analytics, pivot tables, trend analysis, financial reporting

Cross-Functional Work

Partnering with Finance, IT, and Operations teams to align processes and drive accurate reporting

Process Improvement

Identifying root causes, standardizing workflows, reducing manual work, and scaling operations

CAREER JOURNEY

2023–Now

Revenue Operations & AR Analyst

ProLift Toyota Material Handling

Built custom audit tools, implemented Billtrust platform, managed O2C processes

2022–2023

Billing Analyst

TEKsystems

Multi-system billing data validation and reconciliation reporting

2018–2022

Senior AR & Billing Analyst

Delta Dental of Kentucky

End-to-end AR operations, payment posting, aging analysis for large insurance organization

2017–2018

Lead AR Specialist

Car Keys Express

Implemented bank lockbox system, AR operations including invoicing and reconciliation

Earlier Career — Credit Analyst: Credit analysis, D&B scoring, credit approvals, full O2C cycle across multiple organizations

KEY ACCOMPLISHMENTS

Billtrust Platform Implementation

Selected to lead AR automation implementation at ProLift — managed master data uploads, designed statement and collection templates, administered user permissions, and collaborated with IT through full testing cycle

Custom AR Audit Tool Development

Independently built two Excel-based AR audit tools using Power Pivot and advanced formulas — reducing manual review time and improving reconciliation accuracy across the organization

Billtrust Payment Portal Rollout

Spearheaded online payment portal implementation at ProLift — created customer enrollment guide, trained internal stakeholders via Microsoft Teams, administered portal access including enrollment codes and password resets, and transitioned customers from paper credit card forms to a secure self-service digital payment system

Customer Onboarding & Portal Administration

Serves as primary portal administrator — directs customers to the online payment portal, provides enrollment codes, supplies enrollment guides, and resolves access issues including password resets to ensure seamless adoption of the digital payment system

Salesforce Trailhead — In Progress 2026

Business Intelligence Analyst

FINAL STAGE

TripleTen — Final Project Stage 2026

20+ Years Financial Operations

EXPERT

Full Cycle O2C — AR, Billing, Cash Application, Credit Analysis

EDUCATION

Bachelor of Applied Science — Healthcare Management

Brown Mackie College

🇺🇸 United States Navy — Operations Department

Discipline, accountability, and high-performance execution in service to country

WHY TAMIKA BISHOP?

Rare Combination of Skills

Deep financial operations expertise PLUS hands-on systems implementation — most analysts know the business OR the technology. I know both.

Builder Mentality

I don't just maintain processes — I build tools, design workflows, and create systems that scale. I built two custom audit tools from scratch independently.

Cross-Functional Bridge

I translate between finance and IT teams naturally — having collaborated with both throughout my career on implementations, reporting, and process design.

Proven Initiative & Growth

Pursuing dual certifications while working full time — Salesforce Admin and BI Analyst. I take ownership of my growth and bring that same energy to every role.

LET'S CONNECT

I am actively seeking Revenue Operations, Financial Systems, and Order-to-Cash roles where I can contribute deep expertise, builder energy, and a passion for operational excellence.

I bring 20+ years of real-world experience, systems implementation skills, and the drive to make revenue operations more accurate, efficient, and scalable.
